Independent Auditors' Report

To the Members of the Board of Supervisors County of Pittsylvania, Virginia Chatham, Virginia

We have audited the accompanying financial statements of the governmental activities, the discretely presented component units, the major funds, and the aggregate remaining fund information of the County of Pittsylvania, Virginia, as of and for the year ended June 30, 2010, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County of Pittsylvania, Virginia's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Industrial Development Authority of Pittsylvania County, Virginia or the Pittsylvania County Service Authority, which jointly represents 71.3% and 7.2%, respectively, of the total net assets and program revenues of the aggregate discretely presented component units. Those financial statements were audited by other auditors whose reports have been furnished to us, and our opinions on the basic financial statements insofar as they relate to the amounts included for the Industrial Development Authority of Pittsylvania County, Virginia and the Pittsylvania County Service Authority in the aggregate discretely presented component units, are based solely on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component units, the major funds, and the aggregate remaining fund information of the County of Pittsylvania, Virginia as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated December 24, 2010, on our consideration of the County of Pittsylvania, Virginia's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis, the budgetary comparison information and the Schedule of OPEB and Pension Funding Progress as listed in the table of contents, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Pittsylvania, Virginia's basic financial statements. The introductory section, other supplementary information, and the statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of the County of Pittsylvania, Virginia. The supplementary financial statements, budgetary comparison schedule, and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion based on our audit and the report of other auditors, is fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section, other supplementary information, and the statistical section have not been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Management's Discussion and Analysis

The following is a narrative overview and analysis of the financial activities of the County of Pittsylvania, Virginia for the fiscal year ended June 30, 2010. The purpose of this Management Discussion and Analysis is to provide an overview of the County's financial activity, to assist the reader in understanding significant financial issues and to provide information concerning changes in the County's financial position. This narrative provides additional information that should be read in conjunction with reviewing the County's Financial Statements.

Financial Highlights

Government-wide Financial Statements

The assets of the County of Pittsylvania, Virginia exceeded its liabilities at the close of the most recent fiscal year by \$53,476,347 (net assets). Of this amount, \$29,677,421 is unrestricted, or may be used to meet the government's ongoing obligations to creditors and citizens. Information concerning net assets for the County and its component units is located on Exhibit 1. The component units include the School Board's net assets totaling \$12,303,289 of which \$(1,322,351) is unrestricted, the Industrial Development Authority's net assets totaling \$621,384 of which \$(966,416) is unrestricted and Pittsylvania County Service Authority's net assets totaling \$29,871,824 of which \$1,889,936 is unrestricted. (See Exhibit 1.) This exhibit provides insight into the future by using a full accrual accounting method. This model considers all factors when showing the financial position of the County.

The Government's net assets increased by \$1,468,996. In addition, the School Board's net assets decreased by \$310,844 and the IDA's assets increased by \$1,481,536 and the PCSA's net assets increased by \$2,900,263. (See Exhibit 2.)

Fund Financial Statements

Unlike the Government-wide Financial Statements which use a full accrual accounting approach, the Fund Financial Statements use a modified accrual method of accounting. This method differs from the full accrual method by showing a picture of the County's financial position at the present time. A reconciliation of the two methods is provided in Exhibit 4. At the end of the current fiscal year, unreserved fund balance for the general fund was \$31,078,490 or 51 percent of total general fund expenditures. (See Exhibit 3.) This amount includes taxes, accounts and notes receivable reflected in the fiscal year 2010 budget as well as funds allocated to the School Board (fund balance reappropriated) and County Capital Improvement Projects for fiscal year 2011.

As of the close of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$44,965,731, a decrease of \$28,223,883 from last year. Approximately 74 percent of this total amount, or \$33,137,134 (which includes special revenue funds), is available for spending at the government's discretion. This unreserved balance has two parts, designated which represents \$3,924,793 of the unreserved balance and undesignated which represents \$29,212,341 of the unreserved balance. (See Exhibit 3.)

Overview of the Financial Statements

The Comprehensive Annual Financial Report consists of four sections: introductory, financial, statistical and compliance.

- The *introductory section* provides a listing of principal officers for 2009-2010.
- The *financial section* has three component parts managements' discussion and analysis (this section), the basic financial statements which include government-wide financial statements and fund financial statements, and required supplemental information.
- The *statistical section* includes selected financial and demographic data related to the County, generally presented on a multi-year basis.
- The *compliance section* is required under the provisions of the Single Audit Act of 1984 and the U.S. Office of Management and Budget circular A-133, <u>Audits of State</u>, <u>Local Governments and Non-profit Organizations</u>.

Local government accounting and financial reporting originally focused on funds which were designed to enhance and demonstrate fiscal accountability. Now to be accompanied by government-wide financial statements, the objective of operational accountability will also be met. These objectives will provide financial statement users with both justification from the government that public monies have been used to comply with public decisions and as to whether operating objectives have been met efficiently and effectively and can continued to be met in the future.

Government-wide Financial Statements

Government-wide financial statements provide financial statement users with a general overview of County finances. The statements include all assets and liabilities using the accrual basis of accounting. All current year revenue and expenses are taken into account regardless of when cash is received or paid. Both the financial overview and accrual accounting factors are used in the reporting of a private-sector business. Two financial statements are used to present this information: 1) the statement of net assets and 2) the statement of activities.

The statement of net assets presents all of the County's permanent accounts, or assets, liabilities and net assets. The difference between assets and liabilities is reported as net assets. Increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating. Other non-financial factors will also need to be considered to determine the overall financial position of the County.

The statement of activities presents information showing how the government's net assets changed during the fiscal year. The statement is focused on the gross and net cost of various government functions which are supported by general tax and other revenue. The statement of activities presents expenses before revenues, emphasizing that in government revenues are generated for the express purpose of providing services rather than as an end in themselves.

Both government-wide financial statements separate governmental activities and business-type activities of the County. Governmental activities are principally supported by taxes and intergovernmental revenues. They include general government administration; judicial

administration; public safety; public works; health and welfare; parks, recreation and cultural; and community development. Business-type activities recover all or a significant portion of their costs through user fees and charges.

The government-wide financial statements include, in addition to the primary government or County, three component units: 1) the Pittsylvania County School Board, 2) Industrial Development Authority and 3) Pittsylvania County Service Authority. Although these component units are legally separate entities, the County is accountable or financially accountable for them. A primary government is accountable for an organization if the primary government appoints a majority of the organization's government is able to impose its will on the organization or the organization is capable of imposing specific financial burdens on the primary government. For example, the primary government may approve debt issuances, rate structures and/or provide significant funding for operations of the component unit.

Fund Financial Statements

The fund financial statements will be more familiar to past financial statement users. The only difference from prior year presentation of the fund statements is that only major, or significant, funds will be presented. A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Fund accounting is used to ensure and demonstrate compliance with finance-related legal requirements. The County's funds can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds

Governmental funds are used to account for essentially the same functions, or services, reported as governmental activities in the government-wide financial statements. Whereas the government-wide financial statements are prepared on the accrual basis of accounting, the governmental fund financial statements are prepared on the modified accrual basis of accounting. The focus of modified accrual reporting is on near-term inflows and outflows of financial resources and the balance of financial resources available at the end of the fiscal year. Since the governmental funds focus is narrower than that of the government-wide financial statements, reconciliations between the two methods are presented in exhibits 4 and 6 of the financial section of this report.

Proprietary funds

There are two types of proprietary funds: enterprise funds which are established to account for the delivery of goods and services to the general public and internal service funds which account for the delivery of goods and services to other departments or agencies of the government. Proprietary funds use accrual basis accounting, similar to private sector business.

The County of Pittsylvania has no enterprise funds but does have two internal service funds: the Central Stores Fund and the Self-Insurance Fund. The Central Stores Fund accounts for the government's consolidated purchasing of office supplies and telephone charges. The Self-Insurance Fund accounts for insurance premiums paid by the County and School Board for all departments.

Both internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report.

Fiduciary funds

Fiduciary funds account for assets held by the government as a trustee or agent for another organization or individual. The County is responsible for ensuring that the assets reported in these funds are used for their intended purposes. Fiduciary funds are not reflected in the government-wide financial statement because the funds are not available to support the County's own activities.

Notes to the financial statements

The notes provide additional information that is needed to fully understand the data provided in the government-wide and fund financial statements.

Government-wide Financial Analysis

As previously noted, net assets may serve as a useful indicator of a government's financial position. Again, the full accrual accounting method is used to derive these figures. For the County of Pittsylvania, assets exceeded liabilities by \$53,476,347 at the end of the fiscal year.

The County's net assets are divided into three categories: (1) invested in capital assets, net of related debt; (2) restricted; and (3) unrestricted.

County of Pittsylvania's Net Assets

2010

Governmental

2009

Governmental

	,	Activities	Activities	
Current and other assets	\$	60,297,769	\$	96,501,059
Capital assets		127,655,442		99,429,289
Total assets	\$	187,953,211	\$ _	195,930,348
	•			
Long-term liabilities	\$	123,118,546	\$	124,393,133
Other liabilities		11,358,318		19,393,634
Total liabilities	\$	134,476,864	\$ -	143,786,767
	,	Manager 1 - 1 - 1 - 1 - 1 - 1 - 1 - 1 - 1 - 1	-	

Net assets: Invested in capital assets, net		
of related debt	\$ 21,923,612	\$ 17,874,820
Restricted	1,875,314	903,138
Unrestricted	29,677,421	33,365,623
Total net assets	\$ 53,476,347	\$ 52,143,581

For the County, investment in capital assets (i.e., land, buildings, machinery, and equipment), net of related debt used to acquire those assets that is still outstanding, represents 41 percent of total net assets. The County uses these capital assets to provide services to citizens; therefore, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Restricted net assets represent resources that are subject to external restrictions on how they may be used. The majority of these net assets was seized by the Sheriff's Department and can only be used for law enforcement. In addition to these seized funds, a considerable amount of assets are used to maintain a self insured insurance program. The County's restricted net assets account for 4 percent of total net assets.

The remaining balance of unrestricted net assets, which is \$29,677,421 or 55 percent of total net assets, may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the fiscal year, the County is able to report positive balances in all three categories of net assets.

The government's net assets increased by \$1,468,996 during the current fiscal year. The majority of this increase was generated by several tax and rate increases in various categories.

This space left blank intentionally.

Governmental Activities

Governmental activities increased the County's net assets by \$1,468,996. Key elements of this increase are as follows:

County of Pittsylvania's Changes in Net Assets

	2010 Governmental Activities	2009 Governmental Activities
Revenues:		
Program revenues:		
Charges for services	\$ 885,248	\$ 776,068
Operating grants & contributions	21,413,814	22,813,227

Other local taxes	6,414,085	8,304,925
Use of money and property	1,174,002	1,520,387
Other	758,424	272,379
Grants and contributions not		
restricted to specific programs	6,748,918	4,483,640
Community Development Grants	3,006,599	-
Total revenues	\$ 68,308,482	\$ 67,851,002
Expenses:		
General government	\$ 3,008,491	\$ 2,953,224
Judicial administration	1,289,615	1,579,879
Public safety	13,884,135	13,399,420
Public works	5,552,474	4,495,239
Health and welfare	18,784,848	15,855,096
Education	11,601,833	13,030,727
Parks, recreation and cultural	1,179,959	1,163,559
Community development	5,879,792	6,642,658
Interest on long-term debt	5,658,339	4,706,088
Total expense	\$ 66,839,486	\$ 63,825,890
Increase in net assets	\$ 1,468,996	\$ 4,025,112
Net assets, Beginning	52,007,351	48,118,469
Net assets, Ending	\$ 53,476,347	\$ 52,143,581

⁻Revenues: General property taxes decreased by 6% from last year because of the general economic decline of the County. Real property taxes experienced a slight increase of 2% while personal property taxes had a decrease of 2%.

⁻Revenues: Other local taxes decreased by 23% from FY2009, which was due primarily to the removal of the Communication sales tax from this category. Other than this major change, local sales tax was down by 8% while consumer utility tax was up by 32% over FY2009.

Motor Vehicle licenses also increased during this year by 15% because DMV Registration Stops have forced citizens to pay license fees in order to keep their vehicle registration current.

-Expenses: Overall primary government expenditures increased 18% over FY2009. This increase was due to the retirement of debt.

-Expenses: Education decreased 4% from FY2009.

-Expenses: Community Development decreased by 68%. Community Development expenditures decreased significantly because of the expenditure of \$4,134,776.75 that occurred in 2009 for the purchase of property at the Berry Hill Industrial Park did not exist in 2010. The Berry Hill Industrial Park is a joint project with the City of Danville. These funds that were expended in 2009 were returned back to the County within weeks of the initial expenditure because the City agreed to front costs associated with the purchase of property. Excluding this expenditure from the 2009 Industrial Development expenditures, this department would have experienced a decrease of 36% in expenses from the previous year. Because of the economic down turn, the County did not have as many industrial projects during FY2010. Several waterline projects continued in 2010, which included engineering for the Route 40 waterline and the Berry Hill waterline. Other construction projects included engineering for the Olde Dominion Agricultural Complex, construction of the Route 40 Booster Station.

Financial Analysis of the Government's Funds

Governmental funds

The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of financial resources. Such information is useful in assessing the County's financing requirements. Unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the fiscal year, the County's governmental funds reported combined ending fund balances of \$44,965,731. Approximately 74 percent of this total amount constitutes unreserved fund balance, which is available for spending at the government's discretion. The remainder of fund balance is reserved to indicate that it is not available for new spending because it is legally restricted for a specific purpose. The fund balance reserved for school construction totaled \$11,392,713.

The general fund is the chief operating fund of the County. As of June 30, 2010, total fund balance of the general fund was \$31,078,490 all of which was unreserved. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 51 percent of total general fund expenditures, which includes transfers to and expenses on behalf of the School Board component unit of \$10,216,720.

Following is a reconciliation of the Treasurer's books to the Audited Financial Statements.

County of Pittsylvania's Reconciliation of Treasurer's General Fund Balance To Audited General Fund Balance

For the Year Ended June 30, 2010

General Fund Balance per Treasurer	\$	2010 26,503,501	\$	2009 26,677,352
Funds merged for financial reporting purposes:	-			
Adjustment for Central Stores negative cash		(57,686)		(59,390)
Adjustment for WIA negative cash		(605,503)		-
Animal Friendly Plates Revenue Fund		1,505		1,661
Debt Reserve Fund-Human Services Fund		114,037		124,450
County Jail CIP Fund		13,467		18,832
Bond Fund		2,400		2,400
Grants Fund		9,892		(1,255,443)
Capital Improvement Fund		921,211		814,684

Law Library Fund		22,671		23,126
Subtotal - Merged Funds	\$	1,149,784	\$_	637,165
Adjustments to covert cash basis records to the modified accrual	-			
Reversion of School Salaries Payable Fund	\$	4,257,384	\$	4,258,162
Cash moved to other funds		-		(89,849)
Rural Roads cash to Cash Bond fund		_		(291,760)
Funds held in the Sheriff's Office		2,781		-
Cash Adjustment-Amount Due from other Funds		-		-
Lease-purchase funds held by County Administration		-		-
Total Cash Adjustments	\$	4,260,165	\$_	3,876,553
Total Cash/Investments – Exhibit 3	\$	31,913,450	\$_	31,191,070

Accrual Entries:			
Taxes and fees receivable	(1,877,240)		(1,945,830)
Accounts Receivable	429,507		227,198
Amounts due from other funds	663,188		59,390
Amounts due from other Governments	2,149,089		3,239,050
Accounts Payable	(884,641)		(635,426)
Amount due the Component Unit School Board	(1,314,863)		(2,506,694)
Total Accrual Entries	\$ (834,960)	\$_	(1,562,312)
Total Fund Balance General Fund – Exhibit 3	\$ 31,078,490	\$_	29,628,758

Fund balance of the County's general fund increased by \$1,449,732 during the current fiscal year. This increase is due to the increase in merged fund balances and the increase in cash adjustments as well as the decrease in accrual entries. These increases were offset with the beginning cash balance from the Treasurer's Statement of Accountability. This beginning balance showed a decrease of \$173,851 from the prior year.

General Fund Budgetary Highlights

Differences between the original budgeted appropriations and the final amended budgeted appropriations were a \$7,998,495 increase. This increase occurred because of unforeseen events that occurred after the 2010 budget process. Budgeted revenues increased by \$6,126,682 which is attributable to normal growth. Significant budgetary supplements are included below:

- A total of \$3,841,795 of the final amended budgeted expenditures and revenues was actually budgeted twice. This was done in order to show an appropriation for the transfer as well for the expense. Considering this amount would bring the increase in budgeted expenses down to \$4,156,700 and the increase in budgeted revenues down to \$2,284,887.
- During the budget process, an estimate is made for carryover funds not expended in the prior year. These estimates are adjusted at July 1 to accurately show the true amount that remained in these funds at 6/30 of that year. On July 1, 2009, budgeted carryovers were increased by \$2,280,086.
- Grant Funds increased the budget significantly during FY 2010. New grants received during the year totaled \$2,037,278.
- Comprehensive Services Act was also a major expense for the County. An additional appropriation was required to cover these expenditures. The total of this appropriation equaled \$1,953,216, which included state funds of \$1,755,379 and local funds of \$197,837.

Capital Asset and Debt Administration

Capital assets

The County's investment in capital assets for its governmental activities as of June 30, 2010 is \$127,655,442 (net of accumulated depreciation). This investment in capital assets includes land buildings and system, machinery and equipment, and construction in progress.

Major capital asset events during the current fiscal year included the following:

- New Landfill Compactor totaling \$21,084
- New Compactor Site at Route 41/839 totaling \$163,032
- New Compactor at Sandy River totaling \$38,525
- E911 Dell Poweredge Servers and other E911 equipment totaling \$86,435
- Courthouse Renovations totaling \$287,849
- Construction in process on high school renovation project totaling \$60,308,879

County of Pittsylvania, Virginia Capital Assets for Governmental Activities (net of depreciation)

	2010 Governmental activities	2009 Governmental activities			
Land	\$ 4,914,148	\$ 4,902,148			
Buildings and system	58,130,625	59,871,870			
Machinery and equipment	4,301,790	4,236,070			
Construction in progress	60,308,879	30,419,201			
Total	\$ 127,655,422	\$ 99,429,289			

School Board Assets financed with debt are considered assets of the General government until debt on these assets has been defeased. As such, the above listed assets include School Board Assets net of related depreciation of \$108,806,027. Additional information on the County's capital assets can be found in the notes to the financial statements.

This space left blank intentionally.

Long-term debt

At the end of the fiscal year the County had the following outstanding debt:

County of Pittsylvania's Outstanding Debt

	2010 Governmental activities		2009 Governmental activities
General obligation bonds	\$	90,413,982	\$ 92,629,636
Loan Anticipation Note		20,090,000	20,000,000
Lease Revenue Notes		3,517,245	3,884,462
Bond Premium		2,079,140	809,256
Deferred Amount on Refunding		(1,069,652)	(363,837)
Bond Discounts		(160,338)	(168,355)
Landfill closure/post-closure		3,717,581	2,150,044
OPEB Liability		278,000	139,000
Capital leases		3,225,069	4,259,151
Compensated absences		1,027,519	1,053,776
Total	\$ _	123,118,546	\$ 124,393,133

Legislations enacted in fiscal year ended June 30, 2002 requires that debt historically reported by the School Board has been assumed by the Primary Government. The legislation affects the reporting of local school capital assets as well.

Additional information on the County's long-term debt can be found in the notes to the financial statements.

Economic Factors and Next Year's Budgets and Rates

- The current unemployment rate for the County is 10.1 percent, which is a slight decrease from the rate of 10.2 percent a year ago. This compares unfavorably to the state's average unemployment rate of 6.5 percent and the national average rate of 9.2 percent.
- Pittsylvania County continues to work jointly with the City of Danville through a joint authority known as the Danville-Pittsylvania County Regional Facilities Authority. This authority works to attract industry and business to Southside Virginia.
- Pittsylvania County has a median household income of \$38,590 (based on the latest attainable 2008 data) compared to the State median household income of \$61,210.
- Pittsylvania County's current population stands at 61,414 based on US Census Bureau information from 2009.

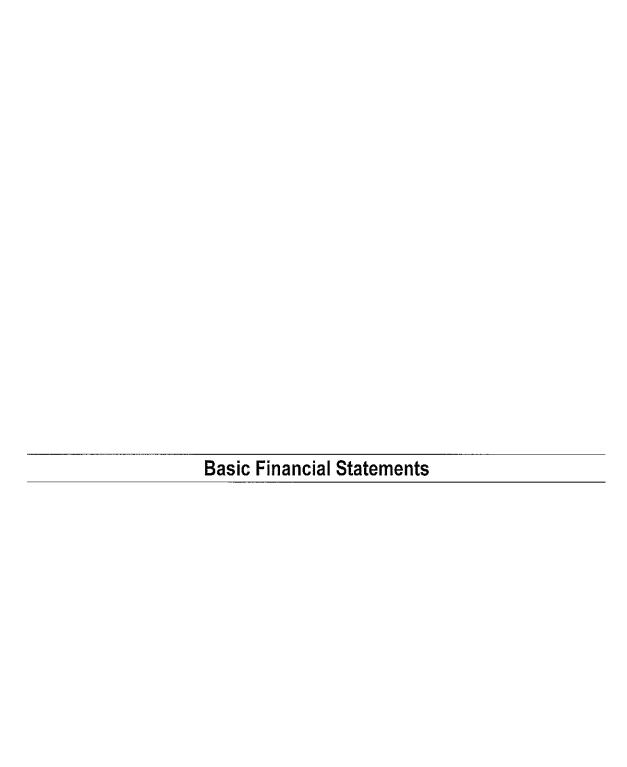

All of these factors were considered in preparing the County's budget for the 2011 fiscal year.

Appropriations for County funds lapse at fiscal year end, with the exception of the Capital Projects Fund, therefore, it is not anticipated that fund balance will be used to finance daily operations for the 2011 budget year.

Requests for Information

This financial report is designed to provide readers with a general overview of the County of Pittsylvania's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Office, P.O. Box 426, Chatham, Virginia 24531. The County's website at www.pittgov.org may also be visited to obtain valuable information about the County.

Information relative to the Pittsylvania County Public Service Authority and the Pittsylvania County Industrial Development Authority financial statements may be obtained from those organizations directly.

County of Pittsylvania, Virginia Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds To the Statement of Activities For the Year Ended June 30, 2010

Amounts reported for governmental activities in the statement of activities are different because:	
Net change in fund balances - total governmental funds	\$ (28,223,883)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays and the transfer	
of debt financed assets to the School Board exceeded depreciation in the current period.	28,362,383
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(1,339,637)
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect	
of these differences in the treatment of long-term debt and related items.	1,772,454
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.	978,956
Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The net revenue (expense) of certain internal service funds is reported with governmental activities.	(81,277)
Change in net assets of governmental activities	\$ 1,468,996

COUNTY OF PITTSYLVANIA, VIRGINIA

Notes to the Financial Statements June 30, 2010

Note 1-Summary of Significant Accounting Policies:

The financial statements of the County of Pittsylvania, Virginia conform to generally accepted accounting principles (GAAP) applicable to governmental units promulgated by the Governmental Accounting Standards Board (GASB). The following is a summary of the more significant policies:

A. Reporting Entity

The County of Pittsylvania, Virginia is a municipal corporation governed by an elected seven-member Board of Supervisors. The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that it is legally separate from the government.

Blended component units - None

Discretely Presented Component Units - The component unit columns in the financial statements include the financial data of the County's discretely presented component units. They are reported in a separate column to emphasize that they are legally separate from the County.

The Pittsylvania County School Board operates the elementary and secondary public schools in the County. School Board members are popularly elected. The School Board is fiscally dependent upon the County because the County approves all debt issuances of the School Board and provides significant funding to operate the public schools since the School Board does not have separate taxing powers. The School Board is presented as a governmental fund type and does not issue a separate financial statement.

The Industrial Development Authority of Pittsylvania County (IDA) encourages and provides financing for industrial development in Pittsylvania County. The County has executed a support agreement with the IDA to provide funding sufficient to meet principal and interest payments on the Authority's \$2,000,000 revenue bond dated August 1, 2005. As such, the IDA is fiscally dependent upon the County. The IDA's fiscal year end is December 31st and financial data presented herewith for the Authority is for the fiscal year ended December 31, 2009. The IDA issues separate financial statements that may be obtained from the County of Pittsylvania, 21 North Main Street, Chatham, Virginia 24531.

The Pittsylvania County Service Authority (Service Authority) provides water and sewer service to residents of Pittsylvania County. The County has executed two support agreements with the Service Authority to provide funding sufficient to meet principal and interest payments on the Service Authority's Series 2006 and 2007 Revenue Notes in the amount of \$622,117and \$660,000, respectively. As such, the Service Authority is fiscally dependent upon the County. The Service Authority's fiscal year end is December 31st and financial data presented herewith for the Service Authority is for the fiscal year ended December 31, 2009. The Service Authority issues separate financial statements that may be obtained from the County of Pittsylvania, 21 North Main Street, Chatham, Virginia 24531.

Note 1-Summary of Significant Accounting Policies: (continued)

A. Reporting Entity (continued)

Related Organizations - The County's officials are also responsible for appointing the members of the boards of other organizations, but the county's accountability for these organizations does not extend beyond making the appointment.

Jointly Governed Organizations - The County, in conjunction with the City of Danville, participates in supporting the Danville-Pittsylvania Community Services Board. The governing bodies of these organizations are appointed by the respective governing bodies of the participating jurisdictions. During the year, the County contributed \$153,609 to the Community Services Board.

The County in conjunction with the City of Danville participates in supporting the Regional Industrial Facilities Authority. The County has committed funds for projects of the Authority as detailed later in this report.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds, if any, are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2010

Note 1-Summary of Significant Accounting Policies: (continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation: (continued)

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as deferred revenues.

Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally in the month preceding receipt by the County.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general-purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when the government receives cash.

The government reports the following major governmental funds:

The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in other funds. The General Fund includes the activities of the Social Services, Debt Reserve, Bond, Zoning, Grants, CIP, Jail Operations, Rural Roads, Landfill Enterprise, Building Code Academy, Courthouse Security, Jail Inmate Management, Landfill Bond, Library Gifts, Courthouse Maintenance, Law Library, Animal Friendly Plates, and Jail Processing Funds. The aforementioned Funds have been merged with the General Fund for financial reporting purposes.

The Industrial Development and Workforce Investment Act Funds serve as the County's major *Special Revenue Funds*. The Industrial Development Fund accounts for financial resources to be used for industrial and community development benefiting the County. The Industrial Development Fund includes the activities of the cyclical and non-cyclical industrial development funds. The Workforce Investment Act Fund accounts for financial resources to be used in administering programs to improve the workforce of Pittsylvania County and surrounding jurisdictions.

The School Capital Improvements Fund is the County's only major Capital Projects Fund. It accounts for financial resources to be used for the acquisition or construction of major capital facilities of the school board.

Note 1-Summary of Significant Accounting Policies: (continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation: (continued)

The nonmajor governmental fund of the County is:

The Forfeited Assets Fund is a Special Revenue Fund that accounts for financial resources to be used in connection with the Sheriff and Commonwealth Attorney's asset forfeiture funds.

Additionally, the government reports the following fund types:

Internal Service Funds account for the financing of goods and services provided to other departments or agencies of the government, or to other governments, on a cost reimbursement basis. The Internal Service Funds consist of the Central Stores and Self-health Insurance Funds.

Fiduciary funds account for assets held by the government in a trustee capacity or as agent or custodian for individuals, private organizations, other governmental units, or other funds. Agency funds include the Special Welfare, Cash Bond, and Sheriff's Inmate Trust and Canteen Account Funds.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are other charges between the government's functions. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary Funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's Internal Service Funds are charges to departments for sales and health insurance. Operating expenses for Internal Service Funds include the cost of sales and services, administrative expense, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Note 1-Summary of Significant Accounting Policies: (continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation: (continued)

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, and then unrestricted resources as they are needed.

D. Assets, Liabilities, and Net Assets or Equity

1. Deposits and Investments

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments for the government, as well as for its component units, are reported at fair value. The State Treasurer's Local Government Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

2. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

3. Property Taxes

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of January 1. Real estate taxes are payable in installments on June 5th and December 5th. Personal property taxes are due and collectible in installments on June 5th and December 5th. The County bills and collects its own property taxes.

4. Allowance for Uncollectible Accounts

The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$1,157,014 at June 30, 2010 and is comprised solely of property taxes.

Note 1-Summary of Significant Accounting Policies: (continued)

D. Assets, Liabilities, and Net Assets or Equity (continued)

5. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

6. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment of the primary government, as well as the Component Unit – School Board, are depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Buildings	40
Building improvements	40
Structures, lines, and accessories	20-40
Machinery and equipment	4-30

7. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. In accordance with the provisions of Governmental Accounting Standards No. 16, Accounting for Compensated Absences, no liability is recorded for non-vesting accumulating rights to receive sick pay benefits. The County accrues salary-related payments associated with the payment of compensated absences. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements.

Note 1-Summary of Significant Accounting Policies: (continued)

D. Assets, Liabilities, and Net Assets or Equity (continued)

8. Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

9. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

10. Net Assets

Net assets are the difference between assets and liabilities. Net assets invested in capital assets represent capital assets, less accumulated depreciation less any outstanding debt related to the acquisition, construction or improvement of those assets.

Note 2-Reconciliation of Government-Wide and Fund Financial Statements:

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets.

The governmental fund balance sheet includes a reconciliation between *fund balance-total governmental funds* and *net assets-governmental activities* as reported in the government-wide statements of net assets. One element of that reconciliation explains that long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds. The details of these \$(123,734,050) and \$(2,280,383) differences for the primary government and discretely presented component unit, respectively, are as follows:

	Primary			Component Unit
	_	Government	ı	School Board
General obligation bonds	\$	(90,413,982)	\$	•
Lease revenue notes		(3,517,245)		•
Loan anticipation note		(20,090,000)		-
Lease purchase agreements		(3,225,069)		-
Unamortized premium		(2,079,140)		-
Unamortized discount		160,338		-
Unamortized issuance costs		1,216,631		-
Unamortized loss on refunding		1,069,652		-
Accrued interest payable		(1,832,135)		-
Landfill accrued closure and postclosure monitoring costs		(3,717,581)		•
Other post employment benefits		(278,000)		(570,000)
Compensated absences	_	(1,027,519)		(1,710,383)
Net adjustment to reduce fund balance-total governmental funds				
to arrive at net assets-governmental activities	\$_	(123,734,050)	\$	(2,280,383)

Note 2-Reconciliation of Government-Wide and Fund Financial Statements: (continued)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances-total governmental funds* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains, "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of these \$28,362,383 and \$(488,827) for the primary government and discretely presented component unit, respectively, are as follows:

	-	Primary Government		Component Unit School Board		
Capital outlays	\$	31,902,657	\$	520,540		
Capital asset deletions		(273,739)		(708,820)		
Depreciation expense		(3,539,466)		(970,541)		
Removal of accumulated depreciation		272,931		669,994		
Net adjustment to increase (decrease) net changes in fund balances - total governmental funds to arrive at changes in						
net assets of governmental activities	\$_	28,362,383	\$	(488,827)		

Note 2-Reconciliation of Government-Wide and Fund Financial Statements: (continued)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities (continued)

Another element of that reconciliation states "the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities." The details of this \$1,772,454 difference in the primary government are as follows:

		Primary
	_	Government
Debt Issued or Incurred:		
General Obligation bond issuance	\$	(12,485,000)
Loan anticipation note issuance		(20,090,000)
Bond issuance costs		434,050
Premium on bond anticipation note		(1,390,581)
Proceeds of lease purchase agreement		(515,563)
Accrued landfill closure/postclosure		(1,567,537)
Principal Payments:		
Bonds		2,325,654
Lease revenue notes		367,217
Lease purchase agreements		1,549,645
Loan anticipation note		20,000,000
Payments to refunded bond escrow agent		13,144,569
Net adjustment to increase (decrease) net changes in fund	_	
balances - total governmental funds to arrive at changes in		
net assets of governmental activities	\$_	1,772,454

Note 2-Reconciliation of Government-Wide and Fund Financial Statements: (continued)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities (continued)

Another element of that reconciliation states, "Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of these \$978,956 and \$(170,513) differences for the primary government and discretely presented component unit, respectively, are as follows:

	_	Primary Government		Component Unit School Board	
(Increase) decrease in compensated absences	\$	26,257	\$	128,487	
(Increase) decrease in accrued interest		1,180,336		-	
(Increase) decrease in other postemployment benefits		(139,000)		(299,000)	
Amortization of bond premium		120,697		-	
Amortization of bond discount		(8,017)		-	
Amortization of loss on refunding		(63,754)		-	
Amortization of issuance costs	_	(137,563)		-	
Net adjustment to increase (decrease) net changes in fund balances-total governmental funds to arrive at changes in net					
assets of governmental activities	\$_	978,956	\$	(170,513)	

Note 3-Stewardship, Compliance, and Accountability:

A. Budgetary Information

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

- Prior to March 30, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them. All Funds of the County have legally adopted budgets with the exception of Agency Funds.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. The Appropriations Resolution places legal restrictions on expenditures at the function level. Only the Board of Supervisors can revise the appropriation for each department or category. The County Administrator is authorized to transfer budgeted amounts within general government departments; however, the School Board is authorized to transfer budgeted amounts within the school system's categories.
- 5. Formal budgetary integration is employed as a management control device during the year for the General Fund, Special Revenue Funds (except the School Fund) and the School Capital Projects Funds. The School Operating Fund and School Capital Projects Fund are integrated only at the level of legal adoption.
- 6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 7. Appropriations lapse on June 30, for all County units. The County's practice is to appropriate Capital Projects by Project. Several supplemental appropriations were necessary during this fiscal year.
- Encumbrance accounting, under which purchase orders, contracts, and other commitments for the
 expenditure of monies are recorded in order to reserve that portion of the applicable appropriations, is not
 part of the County's accounting system.
- B. Excess of expenditures over appropriations

At June 30, 2010, there were no departments with expenditures in excess of its appropriations.

C. Deficit fund equity

At June 30, 2010, the Workforce Investment Act and Central Stores funds had deficit fund equity.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2010

Note 4-Deposits and Investments:

Deposits

All cash of the primary government and its discretely presented component units is maintained in accounts collateralized in accordance with the Virginia Security for Public Deposits Act, Section 2.2-4400 et. seq. of the <u>Code</u> of Virginia or covered by federal depository insurance.

<u>Investments</u>

Statutes authorize the County to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements, and the State Treasurer's Local Government Investment Pool (LGIP).

Credit Risk of Debt Securities

The County has not adopted an investment policy for credit risk.

The County's rated debt investments as of June 30, 2010 were rated by Standard and Poor's and the ratings are presented below using the Standard and Poor's rating scale.

County's Rated Deht Investments' Values

Godniy 3 Hated Debi	IIIVCOLITICITIO	Values				
Rated Debt Investments	Fair C	Quality Ratings				
	AAAm					
LGIP	\$	36,083				
Government Obligations		11,504,378				
Total	\$	11,540,461				

The fair value of the positions in the external investment pool (Local Government Investment Pool (LGIP)) is the same as the value of the pool shares. As this pool is not SEC registered, regulatory oversight of the pools rests with the Virginia State Treasury. LGIP maintains a policy to operate in a manner consistent with SEC Rule 2a-7.

Interest Rate Risk

The County has not adopted an investment policy for interest rate risk and had no investments subject to interest rate risk at June 30, 2010.

Note 5-Due from Other Governmental Units:

The following amounts represent receivables from other governments at year-end:

	Primary Government			Component Unit School Board		
Commonwealth of Virginia:			_			
Local sales tax	\$	297,823	\$	-		
Communication sales tax		401,283		•		
State sales tax		-		1,418,405		
Non-categorical aid		73,110		-		
Categorical aid-shared expenses		456,985		-		
Categorical aid-Virginia Public Assistance funds		82,872		-		
Categorical aid-other		40,579		8,440		
Categorical aid-Comprehensive Services Act funds		652,826		-		
Federal Government:						
Categorical aid-Virginia Public Assistance funds		137,603		•		
Categorical aid-Workforce Investment Act funds		944,860		-		
Categorical aid-other		6,468	_	1,590,614		
Total Amount Due from Other Governmental Units	\$_	3,094,409	\$	3,017,459		

Note 6-Interfund/Component-Unit Obligations:

		Oue to Primary Government/	D	Due from Primary Government/			
Fund	<u>C</u>	omponent Unit		Component Unit			
Primary Government: General Fund	\$	1,314,863	\$	-			
Component Unit - School Board: School Fund	\$	<u>-</u>	\$	1,314,863			

Note 6-Interfund/Component-Unit Obligations: (continued)

Interfund transfers for the year ended June 30, 2010, consisted of the following:

Fund	Tr	ansfers In	Transfers Out			
Primary Government:						
General Fund	\$	174,210	\$ (1,540,917	7)		
Industrial Development Fund		540,917	(172,409	9)		
School Capital Improvements Fund		1,000,000	•			
Forfeited Assets Fund		-	(1,801	1)		
Total	\$	1,715,127	\$ (1,715,127	7)		

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgeting authorization.

Note 7-Long-Term Debt:

Total	\$_	124,393,133	\$_	36,232,187	\$_	(37,506,774)	\$_	123,118,546

The County issued \$12,485,000 of general obligation bonds to provide resources to purchase State and Local Government Series Securities that were placed in an irrevocable trust for the purpose of generating resources for all future debt service payments of \$12,375,000 general obligation bonds. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the Primary Government-Governmental Activities column of the Statement of Net Assets. The reacquisition price exceeded the net carrying value of the old debt by \$769,569. The amount is being netted against the new debt and amortized over the life of the new debt. This advance refunding was undertaken to reduce debt service, long-term, which resulted in less debt service of \$799,256 and an economic gain of \$639,071. Debt that has been defeased in substance, but remains outstanding as of the end of the fiscal year totaled \$12,375,000.

In addition, the County refunded a bond anticipation note in the amount of \$20,000,000, replacing the note with a bond anticipation note in the amount of \$20,090,000.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2010

Note 8-Capital Leases:

Primary Government

The County has entered into lease agreements to finance the acquisition of computer equipment, an excavator for the County and buses for the School Board. The School Board also issued a lease purchase agreement to pay for supplies and non-capitalized equipment used to implement an energy savings plan. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their minimum lease payments at the date of inception.

The assets acquired through capital leases are as follows:

	 School Buses	_	Equipment
Machinery and equipment Less: Accumulated depreciation	\$ 2,874,093 (670,680)	\$_	198,183 (115,984)
Net Asset	\$ 2,203,413	\$_	82,199

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2010, were as follows:

Year Ending June 30,		School Buses		Energy Savings Lease		Equipment Lease
2011	\$	643,140	\$	-	\$	27,163

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2010

Note 10-Employee Retirement System and Pension Plans:

A. Plan Description

Name of Plan: Virginia Retirement System (VRS)

Identification of Plan: Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension Plan

Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent employees of participating employers must participate in the VRS. Benefits vest after five years of service. Employees are eligible for an unreduced retirement benefit at age 65 with 5 years of service (age 60 for participating local law enforcement officers, firefighters, and sheriffs) or at age 50 with at least 30 years of service if elected by the employer (age 50 with at least 25 years of service for participating local law enforcement officers, firefighters, and sheriffs) payable monthly for life in an amount equal to 1.70% of their average final compensation (AFC) for each year of credited service (1.85% for sheriffs and if the employer elects, for other employees in hazardous duty positions receiving enhanced benefits). Benefits are actuarially reduced for retirees who retire prior to becoming eligible for full retirement benefits. In addition, retirees qualify for annual cost-of-living adjustment (COLA) beginning in their second year of retirement. The COLA is limited to 5.00% per year. AFC is defined as the highest consecutive 36 months of reported compensation. Participating local law enforcement officers, firefighters, and sheriffs may receive a monthly benefit supplement if they retire prior to age 65. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The system issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of that report may be downloaded from their website at http://www.varetire.org/Pdf/Publications/2009-Annual-Report.pdf or obtained by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

B. Funding Policy

Primary Government:

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their annual salary to the VRS. This 5.00% member contribution may be assumed by the employer. In addition, the County of Pittsylvania, Virginia is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The County of Pittsylvania, Virginia's contribution rate for the fiscal year ended 2010 was 8.90% of annual covered payroll.

Discretely Presented Component Unit - School Board (Non-Professional Employees):

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their annual salary to the VRS. This 5.00% member contribution may be assumed by the employer. In addition, the School Board is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The School Board's contribution rate for the fiscal year ended 2010 was 6.72% of annual covered payroll.

Note 10-Employee Retirement System and Pension Plans: (continued)

C. Annual Pension Cost

For the fiscal year 2010, the County's annual pension cost of \$1,095,418 (does not include the portion of the employee share assumed by the County which was \$615,404) was equal to the County's required and actual contributions. For fiscal year 2010, the School Board's annual pension cost of \$210,824 (does not include the portion of the employee share assumed by the School Board which was \$156,863) was equal to the School Board's required and actual contributions for the School Board Non-Professionals, respectively.

Three-Year Trend Information

	Fiscal Year Ending	Annual Pension Cost (APC) ¹		Pension of APC		et sion ation
Primary Government:						
County	6/30/2008	\$	886,964	100.00%	\$	-

	6/30/2010		210,824	100.00%		•

¹ Employer portion only

Primary Government:

The required contribution was determined as part of the June 30, 2007 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2007 included (a) an investment rate of return (net of administrative expenses) of 7.50%, (b) projected salary increases ranging from 3.75% to 5.60% for general government employees and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year. Both (the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the County's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The County's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2007 was 20 years.

Note 10-Employee Retirement System and Pension Plans: (continued)

C. Annual Pension Cost (continued)

Discretely Presented-Component Unit School Board - Non-Professional:

The required contribution was determined as part of the June 30, 2007 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2007 included (a) an investment rate of return (net of administrative expenses) of 7.50%, (b) projected salary increases ranging from 3.75% to 5.60% for general government employees and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the School Board's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The School Board's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2007 was 20 years.

D. Funded Status and Funding Progress

Primary Government:

As of June 30, 2009, the most recent actuarial valuation date, the plan was 90.27% funded. The actuarial accrued liability for benefits was \$47,119,923, and the actuarial value of assets was \$42,534,376, resulting in an unfunded actuarial accrued liability (UAAL) of \$4,585,547. The covered payroll (annual payroll of active employees covered by the plan) was \$12,416,646, and ratio of the UAAL to the covered payroll was 36.93%.

<u>Discretely Presented Component Unit - School Board (Non-Professional Employees)</u>:

As of June 30, 2009, the most recent actuarial valuation date, the plan was 93.39% funded. The actuarial accrued liability for benefits was \$12,127,414, and the actuarial value of assets was \$11,326,200, resulting in an unfunded actuarial accrued liability (UAAL) of \$801,214. The covered payroll (annual payroll of active employees covered by the plan) was \$3,168,040, and ratio of the UAAL to the covered payroll was 25.29%.

The schedule of funding progress, presented as Required Supplementary Information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

Note 10-Employee Retirement System and Pension Plans: (continued)

E. Discretely Presented Component Unit School Board

PROFESSIONAL EMPLOYEES:

Plan Description

The Pittsylvania County School Board contributes to the Virginia Retirement System (VRS), a cost-sharing multiple-employer defined benefit pension plan administered by the Virginia Retirement System. VRS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia. The System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. That report may be downloaded from the System's web site at http://www.varetire.org/Pdf/2009-Annual-Report.pdf or obtained by writing to the System at P. O. Box 2500, Richmond, Virginia 23218-2500.

Funding Policy

Plan members are required by Title 51.1 of the Code of Virginia (1950), as amended, to contribute 5.00% of their annual reported compensation to the VRS. This 5.00% member contribution may be assumed by the employer. In addition, the School Board is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the statute and approved by the VRS Board of Trustees. The School Board's contribution to the statewide cost sharing pool for professional employees was \$4,716,692, \$5,824,975, and \$4,174,676 for the fiscal years ended 2010, 2009, and 2008 respectively. Employer contributions represented 13.81% for July 2009 through March 2010 and zero (0.00%) for April through June 2010, 13.81%, and 10.30% of covered payroll for the fiscal years ended 2010, 2009, and 2008 respectively.

Note 12-Risk Management:

The County and its Component Unit – School Board are exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The County participates with other localities in a public entity risk pool for their coverage of general liability, property, crime and auto insurance with the Virginia Association of Counties Risk Pool. Each member of each of this risk pool jointly and severally agrees to assume, pay and discharge any liability. The County pays the Risk Pool contributions and assessments based upon classification and rates into a designated cash reserve fund out of which expenses of the pool, claims and awards are to be paid. In the event of a loss, deficit, or depletion of all available excess insurance, the pool may assess all members in the proportion to which the premium of each bears to the total premiums of all members in the year in which such deficit occurs. The County and its Component Unit – School Board continue to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Notes to Financial Statements (Continued) June 30, 2010

Note 13-Contingent Liabilities:

Federal programs in which the County and its component unit participate were audited in accordance with the provisions of U.S. Office of Management and Budget Circular A-133, <u>Audits of States, Local Governments, and Non-Profit Organizations</u>. Pursuant to the provisions of this circular all major programs and certain other programs were tested for compliance with applicable grant requirements. While no matters of noncompliance were disclosed by the audit, the Federal Government may subject grant programs to additional compliance tests, which may result in disallowed expenditures. In the opinion of management, any future disallowances of current grant program expenditures, if any, would be immaterial.

The State Auditor of Public Accounts (APA) conducted a review of the Comprehensive Services Act Program (CSA) in Pittsylvania County. The review concluded that the County had requested funds of approximately \$7.7 million dollars for ineligible expenses. As a result of the APA's review, the State Office of Comprehensive Services (OCS) has announced their intent to recover funds spent on ineligible expenses. The County disagrees with the APA's review and has started the process of appealing the claim set forth by the OCS and the APA. At this time, the County is unable to estimate the amount of any settlement (if any) that may be due OCS and therefore no liability has been recorded in the financial statements for same.

Note 14-Surety Bonds:

Primary Government:

Fidelity & Deposit Company of Maryland-Surety:	
H. F. Haymore, Jr., Clerk of the Circuit Court	\$ 25,000
Teresa D. Easley, Treasurer	750,000
Samuel W. Swanson, Jr., Commissioner of the Revenue	3,000
Michael W. Taylor, Sheriff	30,000
All constitutional officers' employees: blanket bond	50,000
VACo Insurance Programs:	
All County employees-blanket bond	\$ 250,000
National Grange Mutual Insurance Company:	
All Social Services employees-blanket bond	\$ 100,000

Note 15-Landfill Closure and Postclosure Care Cost:

State and federal laws and regulations require the County to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site after closure. \$4,888,150 is the total estimated closure and postclosure care liability at June 30, 2010. This represents the cumulative amount based on the use of 100% of the estimated capacity of the landfill and is based on what it would cost to perform all remaining closure and postclosure in 2010. The liability on the statement of net assets of \$3,717,581 is based on the County's estimate that the landfill has reached 100% of Phase I and 70% of cell A in Phase II of capacity with a remaining useful life of 20 years for phase II, including cells B&C. Actual costs for closure and postclosure monitoring may change due to inflation, deflation, changes in technology or changes in regulations. The County uses the Commonwealth of Virginia's financial assurance mechanism to meet the Department of Environmental Quality's assurance requirements for landfill closure and postclosure costs.

\$ 265,756

Note 17-Self Health Insurance:

The County of Pittsylvania, Virginia established a limited risk management program for health insurance. Premiums are paid into the health plan fund from the County and are available to pay claims, and administrative costs of the program. During the fiscal year 2010, a total of \$7,568,600 was paid in benefits and administrative costs. The risk assumed by the County is based on the number of participants in the program. The risk varies by the number of participants and their specific plan type (Keycare, Bluecare, etc.). As of June 30, 2010, the County was exposed to risk totaling \$1,390,584 based on enrollment to that date. Such risk represents the difference between the claims to date and the ceiling liability as calculated based on enrollment levels and health plan coverage. Additional costs in excess of the ceiling liability are covered by Anthem as part of their contract with the County. Incurred but not reported claims of \$808,840 have been accrued as a liability based primarily on actual cost incurred prior to June 30 but paid after year-end. Interfund premiums are based primarily upon the insured funds' claims experience and are reported as quasi-external interfund transactions. Changes in the claims liability during fiscal year 2010 were as follows:

		Current Year		
	Balance at	Claims and		Balance at
	Beginning of	Changes in	Claim	End of
Fiscal Year	Fiscal Year	Estimates	Payments	Fiscal Year
2000 10	741 101 ¢	7 626 050 . 6	(7 EGO GOO) ®	000 040
2009-10 \$	741,181 \$	7,636,259 \$	(7,568,600) \$	808,840

Note 18-Deferred Revenue:

Deferred revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Deferred revenue on the Balance Sheet (Exhibit 3) is comprised of the following:

<u>Deferred Property Tax Revenue</u> - Deferred revenue representing uncollected tax billings not available for funding of current expenditures totaled \$2,590,085.

<u>Prepaid Property Taxes</u> - Property taxes due subsequent to June 30, 2010, but paid in advance by the taxpayers totaled \$2,502,979 at June 30, 2010.

Notes to Financial Statements (Continued) June 30, 2010

Note 19-Commitments and Contingencies:

The Board of Supervisors approved moral obligation support agreements with the Pittsylvania County Service Authority, whereby the County will provide funding, if necessary, to repay the Service Authority's Series 2006 and 2007 Revenue Notes.

The Board of Supervisors of Pittsylvania County and the City Council of the City of Danville, Virginia approved support agreements with the Danville-Pittsylvania Regional Industrial Facility Authority to provide funding (subject to annual appropriations) sufficient to meet principal and interest payments on the Authority's \$7,300,000 revenue bonds.

The County has obligated funds for the projects described below as of June 30, 2010:

	Original	Α	mount Paid	Remaining		Retainage	
	Contract	As	of 6/30/2010	Con	ntract Amount		Payable

County's 50% obligat	iion		\$	595,644	\$	465,590	\$	130,055	\$	

The Component Unit School Board has obligated funds for the projects described below as of June 30, 2010:

	Original	Amount Paid		Remaining		Retainage	
	Contract	As (of 6/30/2010	Contr	act Amount	P	ayable
High School Renovations	\$ 4,066,044	\$	3,937,259	\$	128,785	\$	-

School Board Early Retirement Incentive Program:

The Component Unit – School Board administers an early retirement incentive program for School Board employees. Early retirement is available to those employees with a minimum of twenty years of service in the Pittsylvania School System, including the five consecutive years immediately preceding the effective date of retirement. In addition, employees must be at least 55 years of age and less than 65 years of age to be eligible for the program. To participate, the employee must be a vested member of the Virginia Retirement System (VRS). In addition, employees may not work for any other agency covered under the VRS during their tenure in the program. The program allows for payment of 20% of an employee's final contracted salary, earned before the effective date of retirement, for a period of 7 years or until the participant reaches the age of sixty-five. The School Board reserves the right to amend or terminate the program. Employees are required to work twenty days per year to receive their payment. At June 30, 2010 the commitment related to the Early Retirement Incentive Program was \$10,843,924. In prior years this balance has been reflected as a liability, but this program requires service from the retirees to receive benefit, therefore, no liability is present. This is reflected in the restatement of net assets for the Component Unit – School Board.

Notes to Financial Statements (Continued) June 30, 2010

Note 20-Other Post-Employment Benefits

From an accrual accounting perspective, the cost of post-employment health care benefits (OPEB), like the cost of pension benefits, generally should be associated with the periods in which the cost occurs, rather than in future years when it will be paid. In adopting the requirements of GASB Statement No. 45 during the year ended June 30, 2009, the County recognizes the cost of post-employment health care in the year when the employee services are rendered, reports the accumulating liability, and provides information useful in assessing potential demands on the County's future cash flows. Recognition of the liability accumulated from prior years will be phased in over 30 years, commencing with the 2009 liability.

A. Plan Description

The County of Pittsylvania and Pittsylvania County's Component Unit – School Board administers a single-employer healthcare plan ("the Plan"). The Plan provides for participation by eligible retirees and their dependents in the health insurance programs available to County and School Board employees. The Plan will provide retiring employees the option to continue health insurance offered by the County and School Board. Any County eligible retiree may receive this benefit until death. Any School Board eligible retiree may receive this benefit until he/she has reached sixty five years of age.

To be eligible for this benefit a retiree must meet at least one of the following criteria: attained age 50 and 10 years of service, attained age 55 and 10 years of service, or disabled with no age or service requirements. In addition, the School System has and Early Retirement Incentive Program that allows retirees to continue working and receive special benefits for five years if they retire after age 55 with 20 years as a participant of the Virginia Retirement System and have a minimum of 20 years of full-time employment with Pittsylvania County School System. The benefits, employee contributions and the employer contributions are governed by the Board of Supervisors and the School Board and can be amended through the Board of Supervisors and the School Board action respectively. The Plan does not issue a publicly available financial report.

B. Funding Policy

The County and School Board currently pay for the post-retirement health care benefits on a pay-as-you-go basis. The County and School Board currently have 136 and 987 employees that are eligible, respectively, for the program. In addition, 100 percent of premiums are the responsibility of the retiree.

Health benefits include Medical, Dental, and Vision coverage for retirees and eligible spouses/dependents.

Retirees are eligible to choose one of the following medical options through the County and School Board. The rates are as follows:

Medical & Dental	KeyCare 500	Key Care 30	Dental Basic	Dental Comprehensive
Employee Only	423.30	380.99	22.22	38.02
Employee & Spouse	934.98	841.84	43.64	75.92
Employee & Child	649.29	584.54	36.88	64.16
Family	1,267.55	1,141.43	73.06	110.10

Note 20-Other Post-Employment Benefits-Health Insurance (continued)

B. Funding Policy (continued)

The County eligible retirees may continue to receive the benefit past the age of 65. The rates for this group are as follows:

Medical & Dental	KeyCare 500	Key Care 30	Dental Basic	Dental Comprehensive
Employee Only	380.68	342.56	22.22	38.02
Employee & Spouse	761.36	685.12	43.64	75.92
Employee & Child	NA	NA	36.88	64.16
Family	NA	NA	73.06	110.10

C. Annual OPEB Cost and Net OPEB Obligation:

The state's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the state's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the state's net OPEB obligation to SREHP (dollar amounts in thousands):

Annual required contribution	\$	189,000
Interest on net OPEB obligation		6,000
Adjustment to annual required contribution	_	6,000
Annual OPEB cost (expense)	_	189,000
Contributions made		50,000
Increase in net OPEB obligation		139,000
Net OPEB obligation - beginning of year	_	139,000
Net OPEB obligation - end of year	\$ -	278,000

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2010 were as follows:

		Percentage of	
Fiscal	Annual	Annual OPEB Cost	Net OPEB
Year Ended*	OPEB Cost	Contributed	Obligation
	-		
6/30/2009 \$	178,000	22% \$	139,000
6/30/2010	189,000	26%	278,000
*only available for	two vears		

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2010

Note 20-Other Post-Employment Benefits-Health Insurance (continued)

C. Annual OPEB Cost and Net OPEB Obligation: (continued)

For 2010, the School Board's annual OPEB cost (expense) of \$714,000 was not equal to the ARC of \$715,000. The obligation calculation is as follows:

Annual required contribution	\$	715,000
Interest on net OPEB obligation		12,000
Adjustment to annual required contribution	_	13,000
Annual OPEB cost (expense)	_	714,000
Contributions made	_	415,000
Increase in net OPEB obligation	_	299,000
Net OPEB obligation - beginning of year	_	271,000
Net OPEB obligation - end of year	\$	570,000

The School Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2010 were as follows:

		Percentage of	
Fiscal	Annual	Annual OPEB Cost	Net OPEB
Year Ended*	OPEB Cost	Contributed	Obligation
6/30/2009 \$	594,000	54% 9	271,000
6/30/2010	714,000	58% 9	570,000
* Information avai	lable for two vea	ars only	

D. Funded Status and Funding Progress

The funded status of the Plan for the County as of June 30, 2010, is as follows:

Actuarial accrued liability (AAL)	\$ 1,763,000
Actuarial value of plan assets	\$ •
Unfunded actuarial accrued liability (UAAL)	\$ 1,763,000
Funded ratio (actuarial value of plan assets / AAL)	0.00%
Covered payroll (active plan members)	\$ 12,416,646
UAAL as a percentage of covered payroll	14.20%

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2010

Note 20-Other Post-Employment Benefits-Health Insurance (continued)

D. Funded Status and Funding Progress (continued)

The funded status of the Plan for the School Board as of June 30, 2010, is as follows:

Actuarial accrued liability (AAL)	\$ 9,083,000
Actuarial value of plan assets	\$ -
Unfunded actuarial accrued liability (UAAL)	\$ 9,083,000
Funded ratio (actuarial value of plan assets / AAL)	0.00%
Covered payroll (active plan members)	\$ 53,810,354
UAAL as a percentage of covered payroll	16.88%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far in the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, will present multiyear trend information, as it becomes available, about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point.

The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2008, actuarial valuation, the projected unit of credit actuarial cost method was used. Under this method, future benefits are projected and the present value of such benefits is allocated from date of hire to date of eligibility the actuarial assumptions included: inflations at 2.5 percent, plus productivity component of 1.25 percent, and investments rate of return at 4.50 percent, and a health care trend rate of 10.00 percent graded to 5.00 percent over 10 years. The UAAL is being amortized as a level percentage over the remaining amortization period, which at June 30, 2009 was 29 years.

Note 21—Restatement of	f Fund	Balance/	Net Assets

Governmental Activities:

Net Assets as previously reported, June 30, 2009	\$ 52,143,581
Capital Assets Accumulated Depreciation	 (108,714) (27,516)
Net Assets as restated, June 30, 2009	\$ 52,007,351
Component Unit – School Board:	
Net Assets as previously reported, June 30, 2009	\$ 6,148,270
Removal of ERIP liability	 6,465,863
Net Assets as restated, June 30, 2009	\$ 12,614,133

Note 22—Other Post-Employment Benefits-VRS Health Insurance Credit:

A. Plan Description

The County participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is an agent and cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service. The credit amount and eligibility differs for state, school division, political subdivision, local officer, local social services department and general registrar retirees.

An employee of the County, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$1.50 per year of creditable service up to a maximum monthly credit of \$45. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive the maximum monthly health insurance credit of \$45.

Benefit provisions and eligibility requirements are established by Title 51.1, Chapter 14 of the <u>Code of Virginia</u>. The VRS actuarially determines the amount necessary to fund all credits provided, reflects the cost of such credits in the applicable employer contribution rate pursuant to §51.1-145, and prescribes such terms and conditions as are necessary to carry out the provisions of the health insurance credit program. VRS issues separate financial statements as previously discussed in Note 8.

B. Funding Policy

As a participating local political subdivision, the County is required to contribute the entire amount necessary to fund participation in the program using the actuarial basis specified by the Code of Virginia and the VRS Board of Trustees. The County's contribution rate for the fiscal year ended 2010 was 0.00% of annual covered payroll.

Note 22—Other Post-Employment Benefits-VRS Health Insurance Credit: (continued)

C. OPEB Cost and Net OPEB Obligation:

The annual cost of OPEB under Governmental Accounting Standards Board (GASB) 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions, is based on the annual required contribution (ARC). The County is required to contribute the ARC, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

For 2010, the County's contribution of \$0 was equal to the ARC and OPEB cost. The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2010:

	Fiscal	Annual	Percentage	1	Net
	Year	OPEB	of ARC	0	PEB
	Ending	Cost (ARC)	Contributed	Obli	igation
Primary Government:					
County	6/30/2010	\$ -	100.00%	\$	-

D. Funded Status and Funding Progress

The funded status of the plan as of June 30, 2009, the most recent actuarial valuation date, is as follows:

Actuarial accrued liability (AAL)	\$ 347,092
Actuarial value of plan assets	\$ 242,603
Unfunded actuarial accrued liability (UAAL)	\$ 104,489
Funded ratio (actuarial value of plan assets/AAL)	69.90%
Covered payroll (active plan members)	\$ 12,416,646
UAAL as a percentage of covered payroll	0.84%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future and reflect a long-term perspective. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2010

Note 22—Other Post-Employment Benefits-VRS Health Insurance Credit: (continued)

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used included techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

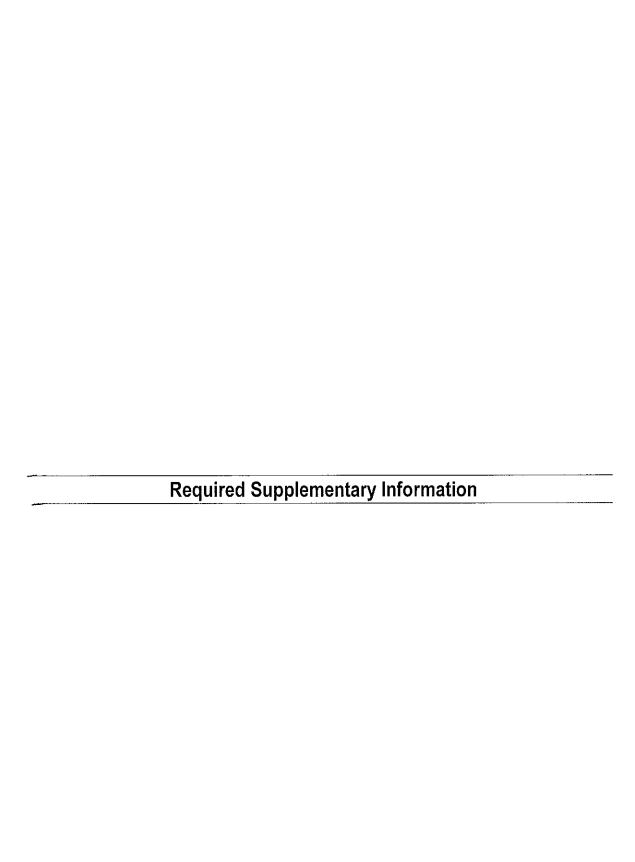

The entry age normal cost method was used to determine the plan's funding liabilities and costs. The actuarial assumptions included a 7.5% investment rate of return, compounded annually, including an inflation component of 2.5%, and a payroll growth rate of 3%. The UAAL is being amortized as a level percentage of payroll on an open basis. The remaining open amortization period at June 30, 2009 was 27 years.

F. Professional Employees – Discretely Presented Component Unit School Board

The School Board participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is a cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service.

A teacher, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$4 per year of creditable service. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive a monthly health insurance credit of \$4 multiplied by the smaller of (i) twice the amount of their creditable service or (ii) the amount of creditable service they would have completed at age 60 if they had remained in service to that age.

The School Board is required to contribute, at an actuarially determined rate, the entire amount necessary to fund participation in the program. The current rate is 1.04% of annual covered payroll. The School Board's contributions to VRS for the year ended June 30, 2010 was \$310,058 and equaled the required contributions.

County of Pittsylvania, Virginia General Fund

Schedule of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual For the Year Ended June 30, 2010

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

To the Members of the Board of Supervisors County of Pittsylvania, Virginia Chatham, Virginia

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component units, the major fund, and the aggregate remaining fund information of the County of Pittsylvania, Virginia as of and for the year ended June 30, 2010, which collectively comprise the County's basic financial statements and have issued our report thereon dated December 24, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications of Audits for Counties, Cities and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the County of Pittsylvania, Virginia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County of Pittsylvania, Virginia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County of Pittsylvania, Virginia's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not necessarily designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control over financial reporting that we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs to be material weaknesses (Reference 2010-1).

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County of Pittsylvania, Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as item (Reference 2010-2).

The County of Pittsylvania, Virginia's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. We did not audit the County of Pittsylvania, Virginia's responses and, accordingly, we express no opinion on them.

We noted certain matters that we reported to management of the County of Pittsylvania, Virginia in a separate letter dated December 24, 2010.

This report is intended solely for the information and use of management, the Board of Supervisors, others within the entity, federal-awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Report on Compliance with Requirements That Could Have a Direct and Material Effect on Each Major Program and on Internal Control over Compliance in Accordance with OMB Circular A-133 Independent Auditors' Report

To the Members of the Board of Supervisors County of Pittsylvania, Virginia Chatham, Virginia

Compliance

We have audited the County of Pittsylvania, Virginia's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the County of Pittsylvania, Virginia's major federal programs for the year ended June 30, 2010. The County of Pittsylvania, Virginia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the County of Pittsylvania, Virginia's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County of Pittsylvania, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the County of Pittsylvania, Virginia's compliance with those requirements.

In our opinion, the County of Pittsylvania, Virginia complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

Management of the County of Pittsylvania, Virginia is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the County of Pittsylvania, Virginia's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County of Pittsylvania, Virginia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, Board of Supervisor, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

The notes to the Schedule of Expenditures of Federal Awards follow this page

Note A -- Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of Pittsylvania County, Virginia under programs of the federal government for the year ended June 30, 2010. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Because the Schedule presents only a selected portion of the operations of the County of Pittsylvania, Virginia, it is not intended to and does not present the financial position, changes in nets assets, or cash flows of the County of Pittsylvania, Virginia.

Note B -- Summary of Significant Accounting Policies

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, Cost Principles for State, Local, and Indian Tribal Governments, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) Pass-through entity identifying numbers are presented where available.

Note C -- Subrecipients

Of the federal expenditures presented in the schedule, Pittsylvania County, Virginia provided federal awards to subrecipients as follows:

CFDA Numbers: 17.258, 17.259 and 17.260 Program Name: Workforce Development Act Cluster Amount Provided to Subrecipients: \$4,352,529

Note D -- Food Donation:

Nonmonetary assistance is reported in the Schedule at the fair market value of the commodities received and disbursed. At June 30, 2010, The Pittsylvania County School Board had food commodities totaling \$0 in inventory.

Note E -- Relationship to Financial Statements

Intergovernmental federal revenues per the basic financial statements:

Primary government: General Fund	\$ 5,085,639
Workforce Investment Act Fund	5,243,510_
Total primary government:	\$ 10,329,149
Component Unit Schools:	
School Operating Fund	\$ 15,806,433
Total Federal Expenditures Per Basic Financial Statements	\$ 26,135,582

Auditee qualified as low-risk auditee?		No

County of Pittsylvania, Virginia

Schedule of Findings, Responses and Questioned Costs Year Ended June 30, 2010

Section II - Financial Statement Findings

2010-1	
Criteria:	Per Statement on Auditing Standards 115, an auditee should have sufficient controls in place to produce financial statements in accordance with applicable standards. Furthermore, reliance on the auditor to propose <i>adjustments</i> necessary to comply with reporting standards is not a component of such controls.
Condition:	The financial statements as presented for audit, did not contain all necessary adjustments to comply with generally accepted accounting principles (GAAP). As such, the auditor proposed adjustments that were material to the financial statements.
Cause of Condition:	The County has historically relied on the auditors for assistance in preparing the financial statements and related adjustments.
Effect of Condition:	There is more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the County's internal controls over financial reporting.
Recommendation:	Management should continue to implement and follow review procedures in order to make all necessary adjustments.
Management's Response:	Management agrees with this finding and will continue to work toward having their trial balance more complete and ready for the audit process.
2009-2	
Criteria:	Behavioral aide expenditures for in-school services are the responsibility of the School system and should not be reimbursed through the CSA program.
Condition:	The County paid for behavioral aide expenditures from January 1, 2010 to June 30, 2010 which was not an allowable Comprehensive Services Act (CSA) expenditure as clarified in a superintendent's memo.
Cause of Condition:	Department of Social Services failed to discontinue this practice when the State Department of Social Services issued a letter to cease this operation.
Effect of Condition:	There is more the a remote likelihood that the State reimbursed the County for more expenditures than were allowable.
Recommendation:	The Department of Social Services should discontinue this practice.
Management's Response:	The County and School Board have made corrections to the program and are working with the Office of Community Services for resolution.

County of Pittsylvania, Virginia

Schedule of Findings, Responses and Questioned Costs Year Ended June 30, 2010

Section III - Federal Award Findings and Questioned Costs

None

Section IV - Status of Prior Audit Findings and Questioned Costs
